

230 Dauntless®

NEW for 2008!

When the 200 Dauntless was introduced for the 2007 model year, boaters welcomed it in a big way. So we thought we'd take the best-liked features of the 200 and put them in an even bigger package – the all-new 230 Dauntless. You'll notice a family resemblance right away in its sleek, stylish lines, and its typical Dauntless versatility for virtually any pleasure boating activity. Standard features include tons of storage, an enclosed portable head, lots of drink holders, plus ample seating including innovative port and starboard bow seating with folding backrests. And a giant 90-gallon fuel tank lets you boat all day with fuel to spare. Standard fishing features include an insulated livewell, a trolling motor flat and a full-width aft casting deck, plus a full complement of options. Watersports? Our standard telescoping swim ladder gets you back into the boat easily during activities like skiing or wakeboarding – made even more fun with our optional, patent-pending All-Activity Tower™ The 230 Dauntless. You'll go for it in a big way.
