

190 Montauk

Looking for even more of a Montauk® than the 150 or 170? Introducing the larger, feature-rich 190 Montauk. At 19' long with an 8' beam, it's the roomiest Montauk ever. This classic-style Whaler® center console offers 360-degree fishability, a reversible pilot seat and a spacious anchor locker forward. The 190 is full of the kind of functional designs that Montauk owners demand: A built-in fuel tank; a stainless steel combination bow chock / navigation light at the bow; molded-in nonskid on the forward storage anchor locker hatch for secure footing; a reversible pilot seat with four locking positions for flexible seating options; three aft storage compartments; a modified shepherd's crook forward of the console for easy grab rail access forward; strategically placed stainless steel grab rails for security in rough water; plus another new product launch, Mercury's 115-hp FourStroke outboard engine.
