## 320 Outrage

The awesome 320 Outrage® – the largest outboard model we've ever built – is the most capable fish-fighter in Whaler's unsinkable history. Sporting a refined version of our famous Accutrack™ hull system – a deep-V hull with a sharp angle of entry to tame miles of unruly open water – it lets you enjoy superior comfort, tracking and a dry ride. The hull also features an innovative keelpad that enhances low-speed planing and improves hole shot. But you don't have to sacrifice creature comforts for superior fishability. There's plenty of seating fore and aft, plus loads of storage. And for an extra measure of comfort previously unknown in boating, our exclusive option, the patented Active Deck Suspension System® (ADSS), suspends a portion of the deck on pneumatic cylinders to act as a shock absorber against rough-water pounding. Check out the 320 Outrage. Its nearest competition isn't even close.
